Security Updates

Please see the [Security Center](#) for information about known and resolved security vulnerabilities.

Resolved Issues

This section identifies the issues resolved in this release.

Resolved Issues

<i>Category</i>	<i>Issue ID</i>	<i>Description</i>
Audio	EN-215316	Incoming RFC2833 DTMF doesn't play on the D230 handset.
Configuration	EN-210609	If the parameter <code>DisplayName</code> contains one or more single quote letters, the line won't display on the handset.
Directories/Address Books	EN-216066	Device is unable to fetch the contacts from Enterprise Directories after being redirected by the initial server.
Interoperability	EN-211406	Audio packets sent to D230 that are of a type that isn't listed in the SDP answer from the far end are thrown away, resulting in one way audio.
Provisioning	EN215817	When the built-in web server administrator or user password is changed through remote provisioning, the device automatically reboots. For provisioning infrastructures that continuously update the password (for improved security), this results in a reboot loop.
Provisioning	EN-216059	When redirected during a provisioning HTTP GET, the user credentials, as provided in the redirection, aren't used to fetch the file at the redirected location.
